

CO2AIR,INC.

CI-300A Crushertizer (pellet dryice playback equipment)

The machine without losing a piece of block dry ice, pellet dry ice can be re-generated.

Until now useless piece of dry ice had melted into a new reborn as a new product.

The size of the pellets can be molded from 3.2mm to 19.0mm of five. Molded headroom prepared separately as necessary if the size of the pellets can be changed easily.

The operation is easy for everyone.
This machine is suitable for a rush orders and small-lot orders to meet demand.
