## RF - 1800HD Reforming Presses

"No cut-loss, no cutting powder, white smoke Protection, Increase income, improve the working environment trump"

Prism-like, tabular, and discoid, Reforming Presses latest model of dry ice to produce the desired shape.

The RF-1800HD is Reforming Presses than the previous capacity of the hydraulic pump, cylinder pressure, and the strength of structural members for more than 50 % increase, a high-quality products will be re-molded from

3mm dry ice pellets.

\*Note) Formation of ice on a different shape if you want to feed Board, DAI-Board, such as forming a piston need to be replaced. Approximate work time: 3 Hr

### Features

- Easy Installation (Immediatery operational)
- Fingertip (User-friendly touch screen)
- No cut-loss, no cutting powder, white smoke Protection

### Spec Sheet

- Power: AC 400V 50/60Hz 3-phase, AC 200V Single-phase, 75 kw
- External Size: Forming Units 1,981 L × 2,146 W × 1,864 H  
Hydraulic Power 2,268 L × 1,829 W × 1,568 H
- Weight: Forming Units about 3,850 kg Hydraulic Power about 3,170 kg
- Product Dimension: (Example) 50 W × 50 L × 125 H Weight 475 g
- Manufacturing Capacity: (Example) 475g 6 ㄗ/Shot, 11 Sec/ Shot, 327 Shot /Sec, 931.95 kg/Hr
- Product Quality: High-precision±1mm, Weight Accuracy±1%, Density about 1.52  
(However, the standard deviation of about 70 percent of = 1.0 distribution, the standard capacity, supply of pellets in stable condition)
- Supply of pellets: 3mm in diameter Pellets for shotblasting
- Oil Capacity: about 1,100 L Using ISO VG32 ~ 56
- Safety Device: Cover the safety net, Equipped with a variety of interlocks  
(Optional: Accepted the original introduction of the program)
- Manufacturing: Georgia, USA
